

Semester Progress:

LABS:

Successful Implementation of the 24hr lab process:

- When does the lab need to be staffed
- Lack of use of the error reporting device
- QA what do we need to change

New Equipment:

- 800 Plotter & capabilities
- Render Farm...new policy on rendering
- 11 New computers – IT Money
- upgrade of remaining pc...all burners, 512MB physical mem and 250 zip

STUDIOS:

Known problems:

- Bandwidth issues
- theft
- networking group identification
- care of equipment

Upgrades:

- all systems upgraded to 384MB ram
- planned upgrade additional 10GB drive space – summer 02
- strategic plan for replacement during summer 03

Concept of studio discussion:

- why do we have studio
- what part does the pc play in studio
- what is the perceived concept of the digital studio
- what part does the internet play in studio
- difference between inter and intra networking
- what role would the removal of the internet play.
